How This Planner Works

Your ADHD Brain is Not Broken

This planner is designed to work WITH how your brain actually functions — not against it. No complicated systems. No guilt. Just simple, flexible pages that help you get things done.

The Daily Page

Each day has: 3 Must-Do tasks (not 20!), a time-blocking grid, energy level check, brain dump space, and a win tracker. Fill in what works. Skip what doesn't.

Brain Dump Pages

When your brain is racing at 3am, grab this book. Dump everything out. Sort it later. The act of writing it down frees up mental RAM.

Weekly Review

Every week, spend 10 minutes looking back. What worked? What didn't? No judgment. Just data. Adjust and keep going.

The Dopamine Menu

A list of healthy rewards you actually enjoy. Finished your 3 tasks? Pick from YOUR menu. This replaces doom-scrolling with intentional joy.

My Dopamine Menu

Healthy rewards for when you finish your tasks.
Fill this in. Use it. Update it. No guilt.
