How To Use This Tracker

Perimenopause symptoms can shift week to week. Tracking them daily for 14 weeks gives you a clear picture of patterns — and gives your doctor real data to work with.

1. Each morning or evening, fill in one DAILY page. Rate symptoms 0 (none) - 5 (severe).
2. At the end of each week, complete the WEEKLY REVIEW. Spot trends in mood, sleep, and hot flashes.
3. Once a month, fill in the DOCTOR VISIT PREP page before your appointment. Bring this book with you.
4. If you start or change HRT, supplements, or any medication, note the date and dose so you can correlate with how you feel.

This is a personal journal, not medical advice. Always discuss symptoms and treatment options with a qualified healthcare provider.

Common Perimenopause Symptoms

Use these labels in the 'Other Symptoms' field of your daily log.

Vasomotor
Hot flashes • Night sweats • Chills • Heart palpitations

Sleep
Insomnia • Waking 3-5am • Restless legs • Vivid dreams

Mood
Anxiety • Low mood • Irritability • Mood swings • Tearfulness

Cognitive
Brain fog • Memory lapses • Word-finding trouble • Difficulty focusing

Cycle
Heavy bleeding • Spotting • Skipped period • Shorter cycle • Longer cycle

Body
Joint pain • Muscle aches • Headaches • Migraines • Bloating • Weight gain

Skin & Hair
Dry skin • Itchy skin • Hair thinning • Acne • Facial hair

Genitourinary
Vaginal dryness • Painful sex • Urinary urgency • UTIs

Energy
Fatigue • Crashing energy • Low libido

HRT & Supplement Notes

Record any hormone therapy or supplement so you can correlate with symptoms. Always discuss with your doctor.

Hormone Therapy (HRT)

Type / Brand	Dose	Route (oral/patch/gel)	Started

Supplements

Supplement	Dose	Times / day	Started

Week 1 | Day 1 Date: ____/____/_____

Cycle Day: _____ **Bleeding: None / Spot / Light / Med / Heavy**

Symptoms today (circle 0 = none, 5 = severe)

Hot flashes (count: ____)	0 1 2 3 4 5	Brain fog	0 1 2 3 4 5

You Did It

Fourteen weeks of tracking is real, valuable data — about you, by you.

Look back through the pages. What patterns surprised you? Which weeks felt strongest? Which interventions helped most?

Bring this book to your next appointment. You now have evidence, not guesswork, to guide your next steps.
