Wind-Down Routines & Sleep Hygiene Guide

Track · Improve · Rest Better | 100+ Pages

Sleep Hygiene Essentials

- **Same Time Every Day**

  Go to bed and wake up at the same time — even weekends. Your body clock needs consistency.

- **Screen Curfew**

  No screens 60 minutes before bed. Blue light suppresses melatonin. Read a book instead.

- **Cool & Dark Room**

  Ideal temperature: 65-68°F (18-20°C). Use blackout curtains. Your brain sleeps better in the dark.

- **No Caffeine After 2pm**

  Caffeine has a 6-hour half-life. That 3pm coffee is still in your system at 9pm.

- **Wind-Down Ritual**

  Create a 30-min routine: dim lights → warm drink → journal → breathing. Signal your brain it's time.

- **Bed = Sleep Only**

  Don't work, scroll, or worry in bed. Train your brain: bed means sleep.

- **Dump Your Worries**

  Racing thoughts? Write them in this planner. Getting them out of your head is the first step.

- **Move Your Body**

  Exercise helps sleep — but finish at least 3 hours before bed.

Night 1

Date: _____

Pre-Sleep Checklist

- [ ] No caffeine after 2pm
- [ ] Screens off 60min before bed
- [ ] Room cool & dark
- [ ] Wind-down routine done

Sleep Data

Bedtime: ___:___ PM/AM

Wake time: ___:___ AM

Hours slept: _____ hours

Time to fall asleep: _____ min

Night wakings: _____ times

Sleep Quality: ◯ Terrible ◯ Poor ◯ OK ◯ Good ◯ Amazing

Morning Energy: ◯ Exhausted ◯ Low ◯ Medium ◯ High ◯ Refreshed

What helped me sleep:

What hurt my sleep:

Dream Journal (optional)

Night 2

Date: _____

Pre-Sleep Checklist

- [ ] No caffeine after 2pm
- [ ] Screens off 60min before bed
- [ ] Room cool & dark
- [ ] Wind-down routine done

Sleep Data

Bedtime: ___:___ PM/AM

Wake time: ___:___ AM

Hours slept: _____ hours

Time to fall asleep: _____ min

Night wakings: _____ times
